

Plan of Action for National Master Trainers' Workshop on the Management of Tuberculosis and Leprosy Diseases:

1. Participants should write and submit a report to their authorities about the workshop at the zonal School level in the next 3 months.
2. The zonal representatives should work together to draw out a uniform programme for the step-down workshop.
3. Participants should use the training modules used at the National Master Trainers Workshop to teach their students and in the workshops at the zonal and state levels.
4. Participants should liaise with State TB & Leprosy Control Officers and LGA supervisors to facilitate trainings in the zones.
5. Final year students should be taught and assessed on the current management of Leprosy and Tuberculosis based on the reviewed curriculum.
6. The facilitators from the Federal Leprosy Centre, Zaria should be involved in the zonal workshops.
7. Participants should pass the information of this workshop to their colleagues in their Schools.
